

Conductive Trough

apogee
Technology Inc.

The World's Most Efficient Aluminum Launder System

CT Performance Features

- Low Energy Consumption (Less than 500W/ft)
- Sub-surface Conduction Heating
- Cool Lid Temperatures
- Virtually Skimless
- Longer Refractory Life
- Low Maintenance
- Isothermal Holding Capabilities to 1450°F
- In-Line Metal Heating Capabilities
- Uniform Temperature Throughout Metal Depth
- Precise Temperature Control
- Metal Quality Retention

Protected by the following U.S. Patents: 6,066,289; 5,968,223; 6,444,165; 6,470,041; 7,033,538; others pending
